

SCRAPE ARMOR

DRIVEN TO PROTECT®

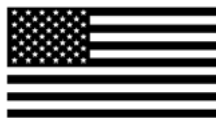

ABOUT US

Scrape Armor was developed after 20 years of specializing in aftermarket exotic vehicle accessory installations.

Too often cars would come in with unseen front end damage leading to expensive repairs and customer frustration.

We developed precision fit, low-profile skid plates to protect and preserve our customers vehicles.

MADE IN USA

LIFETIME WARRANTY

PRECISION FIT

OUR SOLUTION

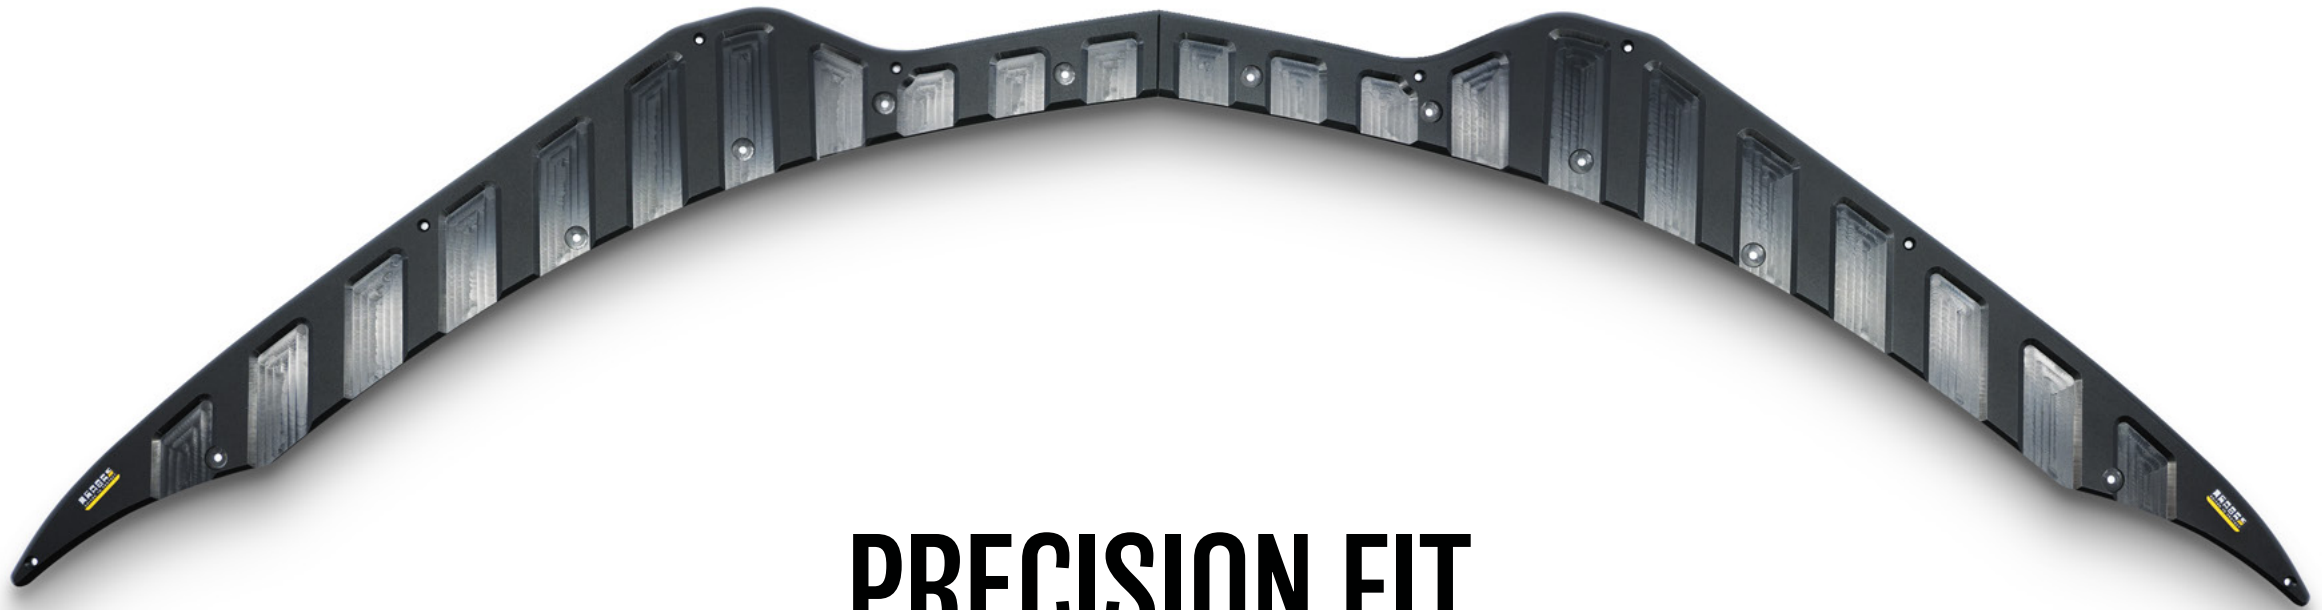

Eliptek beveled edge allows the vehicle to slide on and off of obstacles without pulling.

Patented Glidetek rail design reduces a vehicle's contact surface area by 50%.

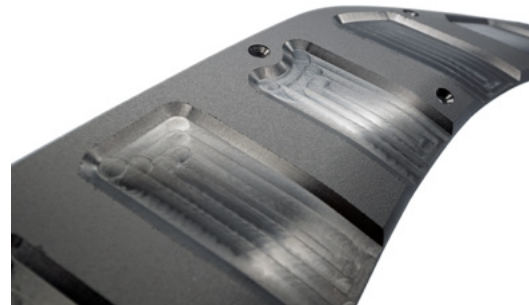

Teklite polymer reduces friction allowing the vehicle to slide on and off of obstacles with ease.

PRECISION FIT

Scrape Armor kit development begin with a 3D scan of the vehicle front end.

Panels are precision milled and 3D molded to perfectly fit vehicle contour and ensure a low-profile installation.

Can be installed at the time of vehicle purchase or used to cover existing damage.

DEALER BENEFIT

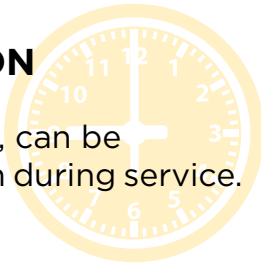

HIGH PROFIT MARGIN

High success rate when pre-loaded or customer is shown existing damage.
